

# Harvest International's Haiti Earthquake Disaster Relief

On the morning of August 14, 2021 a 7.2 magnitude earthquake hit Southwest Haiti. Every building at Camp Mahanaim received serious damage. Most of the buildings were completely destroyed. There were over 150 young people at the camp at the time and Praise the Lord all of them were able to escape. There was no loss of life or injuries but the camp is not safe due to the damage to the building.

It has been reported that over 227 people in surrounding communities have lost their lives and the total is expected to rise as more rescue workers arrive.

Please pray for the people of Southwest Haiti and especially the Wray family.

If you would like to help please complete the form below and return with your gift or donate online at [www.HarvestInternational.org](http://www.HarvestInternational.org). Please designate your gift to EARTHQUAKE RELIEF.
